

Best Beer Company
Bringing People Together
For a Better World

AB InBev Environmental Policy

Our dream is to be the Best Beer Company Bringing People Together For a Better World

In support of this dream, we will work vigorously to achieve a high standard of Environmental performance throughout our organization. With the full commitment and active participation of company leaders and colleagues around the world, Anheuser-Busch InBev will:

- Comply with all applicable environmental laws and regulations, company standards and other requirements. In areas where only limited environmental regulations are in place, we will apply our own higher standards.
- Produce our products in the most environmentally responsible way, while maintaining our commitment to quality, through the efficient use of natural resources across the supply chain and the establishment of environmental performance improvement targets
- Incorporate environmental targets into performance evaluations for all our operations, from management positions through roles at all levels
- Encourage employee participation and individual accountability for environmental actions
- Integrate environmental considerations into business planning, decision making and daily activities
- Maintain qualified and trained teams that ensure reliable, safe and efficient operations, while promoting continuous improvement of our environmental performance
- Increase awareness of our environmental programs and involve stakeholders in our efforts, including AB InBev colleagues, customers, suppliers, community organizations, government officials, regulatory agencies and other key groups
- Continuously evaluate, benchmark and communicate our environmental performance

All employees and contractors working on our behalf also have responsibility and accountability for compliance with this policy.

Neither production goals nor financial objectives shall excuse non-compliance.

Carlos Brito
CEO, Anheuser-Busch InBev
